

Appendix Templates Pack

This pack contains text templates referenced in the book:

- Daily checklist wording
- Game plan one-paragraph script
- STI quick reference
- Risk statements and disclaimers (short form)
- Flowchart narrative for STI sequence

One-Paragraph Game Plan Script

Today I will trade only STI-confirmed setups in the direction of the main trend. If volatility, spreads, and conditions are acceptable, I may use options; otherwise I will trade shares. My focus is 100% on following my rules, not predicting the market. I will stop trading immediately if I hit my daily max loss, and I will review every trade after the close.
